Dear Dr. Mc Connell:

According to the instructions of
Ing. Julio Monges, we are enclosing the requested data.

In some cases, it was necessary-
to send the original negatives, which we hope you -
will return as soon as possible. So that you can --
identify to which station corresponds each negative,-
we are also sending a xerox copy of the descriptions-
of these stations.

The negatives will be sent under
separate cover, registered mail.

Yours sincerely,

E. Salyanc
