AUTÓNOMA DE
MÉXICO

March 7, 1984.

Ms. Valerie M. Godles
Hawaii Institute of Geophysics
Room 108
2525 Correa Road
University of Hawaii
Honolulu, Hawaii 96822
U.S.A.

Dear Valerie,

Thank you for your letter dated in January 31, 1984.
It is a pleasure to tell you that in the Geophysics Institute
of the National University of Mexico, we have:

- 1) Meter, gravity, Lacoste and Romberg 93, 1D #088462.
- 2) Micro Barograph. Panlin.
- 3) Altimeter, Wallace & Tiernan, Model FA-181, Serial No.
4225 B 1000-7000 Ft.

The Gravity Meter # 93, is being used in some of our
programs of 1984. If it is possible, we would like to keep it
for all this year.

The Micro Barograph is in my house's brothers
which is located in the border of Mexico-U.S.A., as we had
difficulties at custom house. The place where it is kept is
secure, and we can bring it when it is necessary.

The altimeter was brought by Dr. Woolard, but as a
result of its short rank, it can't be used, so I have it at
my office.

Sincerely,

Ing. Julio Monges
