Dr. Julio Monges Caldera
Instituto de Geofisica
Ciudad Universitaria,
Mexico, 20 D.F.

Dear Dr. Monges:

I came back home safely in the middle of September after the IAVCEI Symposium in Santiago, Chile. Since that time I have been very busy in faculty meetings and in national projects of geophysical researches, and waiting for the color-photos taken in Mexico. Enclosed please find photos. Would you kindly give some photos to Mr. Mena and our driver ?

I am proud of my visit to Paricutin Volcano because I must be only one Japanese geophysicist who has visited the volcano. I shall not forget your kindness extended to me during my stay in Mexico.

In a few years, I would like to return to Mexico.

With my best regards to Mr. Mena,

Very sincerely yours,

I. YOKOYAMA.
