

September 9, 1960.

Mr. Hugh L. Dryden,
Deputy Administrator
National Aeronautics and
Space Administration
1520 H Street, N. W.
Washington 25, D. C.
U. S. A.

Dear Mr. Dryden:

I refer to your letter of August 26 regarding your invitation to meteorological agencies that wish to correlate their own observations with the data that will be obtained from the experimental meteorological satellite, Tiros II.

I have sent a copy of your letter to the Director of Meteorological Service, Ing. Juan Mas Sinta, and to the Director of the Institute of Geophysics, Dr. Julián Adem, who was in charge of the Meteorological branch in Mexico during the IGY.

The first institution control meteorological stations in land and in sea, and the Institute of Geophysics and Dr. Julián Adem, personally, carry on research studies with regard to the general circulation of the atmosphere.

Following are the addresses of the above mentioned institutions:

Ing. Juan Mas Sinta,
Director General de la Dirección
de Geografía e Meteorología.
Av. Observatorio 192,
Tacubaya 18, D. F.
México.

Dr. Julián Adem, Director
Instituto de Geofísica
Torre de Ciencias, 3er Piso
Ciudad Universitaria
México 20, D. F.

Very truly yours,

Ricardo Monges López,
Chairman, Mexican Section.
