

December 20, 1960

Prof. George P. Woollard, Director  
Geophysical & Polar Research Center  
6021 South Highland Road  
The Highlands  
Madison 5, Wisconsin  
U. S. A.

Dear Prof. Woollard:

I am very pleased with the information given to me in your letter of December 14 regarding the La Coste gravity meter expedition in South America.

As you already know, Dr. Adem is now the Director of the Institute of Geophysics and my son, Julio Monges C., is in charge of everything regarding gravity work. Both of them have taken note of your letter and will gladly help you and Mr. Richard Longfield in this project.

Right now I am working here at the University on space research. I am in charge of the Centro de Estudios Espaciales, which has just been created by the University, and working on "Project Mercury" as well.

Please receive my very best wishes for a most Merry Christmas and a Happy New Year for you and your family.

Most sincerely,

Ing. Ricardo Monges López,  
Presidente.
